

Print to Print Services

Cooper's Imaging provides a convenient, safe and cost efficient method of duplicating pictures without negatives. Printed on Fuji Crystal Archival Paper, your photographs will be of the same or better quality than your original photograph. This is a wonderful method in preserving your old family photographs, which may have become deteriorated over the years. Reproducing them on archival safe, acid-free paper will ensure their preservation for years to come. Note: no work/damage will be done to your original photograph. Due to Copyright laws, we are unable to reproduce or duplicate any photograph that has been taken or produced by a professional photographer without a copyright release.

Size	Price	Additional Prints from Same Image
2 wallets	\$3.99	\$2.00
3x5, 4x6, 4x7	\$3.99	\$2.00

8x12	\$11.99	\$6.00
10x12	\$13.99	\$7.00
10x13	\$14.99	\$7.50
10x15	\$15.99	\$8.00
11x14	\$15.99	\$8.00
11x17	\$17.99	\$9.00
12x18	\$21.99	\$11.00

Setup Charge for "same size" prints

Old photographs are often odd sizes compared to the print sizes offered today. However, if the customer requests that the original size of their photograph not be altered, a set up charge will apply. The prints will then have to be mounted on a standard size print and hand cut accordingly.

1-5 prints- \$5.00/order

6-10 prints- \$8.00/order

11-15 prints- \$12.00/order

16+ prints- \$15.00/order

16+ prints- \$15.00/order
