

## Contact Sheets

Cooper's Imaging provides contact sheet services for your color, black and white, 35mm and 120mm film. Available on matte or glossy surfaces, contact sheets offer an alternative to the standard printing process. Note: Prices include film processing and only apply at the time the uncut film is developed. Note: Contact sheets of 120mm display a 4x6 format image. Some medium format negatives may crop on the actual contact sheet.
